

# CUSTOM SOLUTIONS FOR INDUSTRIAL APPLICATIONS

## GUZZLER® CLASSIC (CL)

LOW PROFILE - HIGH CAPACITY

FS Solutions built an industrial vacuum loader for applications with height restrictions in plants, tunnels or bridges lower than the standard 13'6". The Guzzler CL Low Profile - High Capacity is 2' lower than most industrial vacuum trucks giving contractors access to many areas formerly too low to enter. Starting with the legendary Guzzler CL, the unit body was lowered in height and low overhead clearance helps ensure the operator can enter jobsites previously inaccessible

- Rear vacuum port, 45 deg. elbow
- Top of tank vacuum port with non skid platform

(Low profile) 11' overall height

- 60 bag filtration w/air cannon
