

GUZZLER CLASSIC (CL) Boom Options

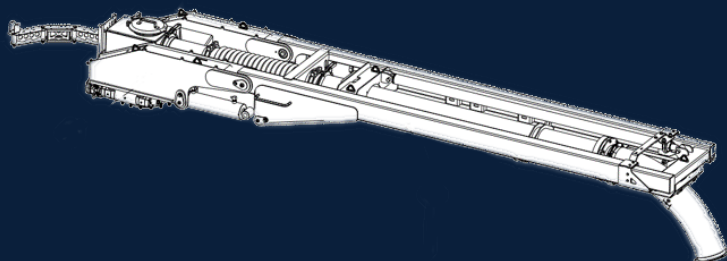

FIXED

EXTENDABLE

TELESCOPIC

BOOM STYLE	FIXED	EXTENDABLE	TELESCOPIC
PROS	Hose length is fixed	Provides extra reach	Most versatile option for wide variety of applications
CONS		Hose length is variable	
HOSE SIZE	8"	8"	8"
REACH	16.2'	21.9' extended	22.6' extended
ROTATION	320° with catwalk handrails folded down in stored position 248° with catwalk handrails in vertical position	320° with catwalk handrails folded down in stored position 248° with catwalk handrails in vertical position	320° with catwalk handrails folded down in stored position 248° with catwalk handrails in vertical position
MAX. CLEARANCE OF RETRACTED HOSE	13.3'h	23.9'h Ideal for cold weather applications	20.5'h
OPTIMAL APPLICATIONS			
BOOM DESCRIPTIONS			The optional telescoping boom has been improved for increased lifting capacity. The pendant length reaches 55 ft (16.8 m) to give total access around the unit. The lifting geometry has changed so that the hose pivots at the mid-point to provide longer hose life. The telescoping boom can be stored with the hose attached for greater convenience between locations and transporting.
